S I R :

SECOND INFORMATION DISCLOSURE STATEMENT

Respectfully submitted herewith is a copy of a European Patent Office Search Report (3 pages) together with copies of 6 of its 7 cited references. One reference, namely DE 195 17 265 was already filed on or about January 23, 2001 together with PTO-1449, and German Patent Office Search Report in which it was listed. Further relevance is noted for this reference on the enclosed copy of the European Patent Office Search Report.

With respect to all the references filed in the European Patent Office Search Report the references listed with an A mean these references define the general state of the art which is not considered to be of particular relevance with respect to the listed claims. The references listed in category X mean these documents are of particular relevance; and the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when each document is considered alone, with respect to the listed claims. The references listed in category Y mean these documents are of particular relevance with respect to the listed claims; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more such documents, such combination being obvious to a person skilled in the art.

In the European Patent Office Search Report the words "Einschlägige Dokumente" means relevant document, "Kategorie" means category, "Kennzeichnung des Dokuments mit Angabe, soweit erforderlich, der massgeblichen Teile" means designation of the documents with statements as far as necessary of the relevant parts, "Betrifft Anspruch" means concerning claim, "Zusammenfassung" means abstract or summary, "Spalte" means column, "Zeile" means line, "Abbildung(en)" means Fig(s). or illustration(s), and "das ganze Dokument" means the entire document. Since this translation now points out in English the relevant portions of the citations listed in the European Patent Office Search Report, and the five US patents are in the English language so no further concise explanation is required to be pointed out.

A PTO-1449 form is presented listing the 6 submitted references. Translation of the foreign language reference is not available to the undersigned.

A Certification under Rule 97(e) is presented herewith.

This submission meets the requirements of 37 CFR §1.56, 1.97 and 1.98(a) and MPEP 609.

Respectfully submitted,  
Frank Sattler, et al
